DETAILED ACTION

Allowable Subject Matter

1. Claims 1 – 13 are allowed.
2. The following is an examiner's statement of reasons for allowance:

Regarding independent claim 1:

The prior of art of record (US 2002/0096492 A1 by George et al.) teaches a silicon wafer as a semiconductor substrate, an insulating layer formed on a silicon wafer and a heating layer. However, this prior art of record fails to teach or reasonably suggest an infrared radiation element comprising:

a porous heat insulating layer formed on a surface of said semiconductor substrate, said heat insulating layer having smaller thermal conductivity than said semiconductor substrate.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
